LABbooks®

Laboratory Information Management Systems (LIMS) To Automise Your Laboratory!

Affordable & technological advanced solutions for small to large scale labs.
Increase efficiency & manage Labs easier than ever.

LABbooks™ have evolved after R&D with couples of years for patient sample tracking to an enterprise resource planning tool that manages multiple aspects of laboratory informatics.

Labbooks™ allow you to effectively manage samples and associated data. By using Labbooks™, your lab can automate workflows, integrate instruments, and manage samples and associated information.

We currently offer the following features

Labbooks™ is a well organized Software for managing your laboratory in a smart way. It contains all the useful modules to run your lab efficiently. Below given is the full list of the modules based on different roles. We constantly monitor the current industry trends and upgrade our software regularly.
